Hello, my name is Iakovos and I am a passionate graphic designer. I love and enjoy designing unique designs with the best possible professional quality.

While my experience as a professional designer is a bit limited, I've been working on personal projects for quite a few years, in addition to requests from my personal network.

Generally, I'm always keen on learning and applying new methods in my projects, adding a personal touch wherever possible and meeting whatever requirements are requested.

My dedication allows me to always deliver whatever is needed.

I mostly work with Adobe Photoshop for photo/image editing, but I'm comfortable working with the rest of the Adobe suite, ranging from Adobe Illustrator to InDesign for business cards, brochures, logos, etc.

Feel free to get in touch with me, I can't wait to get started on a new project!
